

# A CHANGE TO THE COMMERCIAL ENTITY STRUCTURE

## Changes Effective July 1, 2018

Coty's mission is to become a challenger and leader in beauty, and we have progressed towards our goal by exiting our Transitional Service Agreements that followed the merger with P&G Specialty Beauty.

The next step of our journey is to move to a more sustainable way of working through the simplification and standardization of our business systems and processes.

On July 1, 2018, Coty will take the next step towards this objective by:

Consolidating its commercial activity for select businesses in the US, Canada, Eastern Europe, and Travel Retail.

This means, as a valued business partner you will benefit from a reduction in the number of legal entities you transact with and a harmonized invoicing process.
